## Feedback

Astronaut Buzz Aldrin, lunar module pilot of the first lunar landing mission, poses for a photograph beside the deployed United States flag during an Apollo 11 Extravehicular Activity (EVA) on the lunar surface. The Lunar Module (LM) is on the left, and the footprints of the astronauts are clearly visible in the soil of the Moon. Astronaut Neil A. Armstrong, commander, took this picture with a 70mm Hasselblad lunar surface camera. While astronauts Armstrong and Aldrin descended in the LM, the "Eagle", to explore the Sea of Tranquility region of the Moon, astronaut Michael Collins, command module pilot, remained with the Command and Service Modules (CSM) "Columbia" in lunar-orbit.

Title: Standing on The Moon / Mission / 12-1-08 Post by: LD on November 29, 2008, 04:38:29 AM

I thought there was just so many neat things and different aspects of this target to pick up on. Revs was all over it... again! Thanks to all who participated. :)

Title: Re: 12-1-08 Your Mission...

Post by: RevsDrag on December 01, 2008, 11:09:03 PM

-----

Just wanted to publically acknowledge the super great mission sessions. ;D I believe collectively we as a group just NAILED the target. :o

Somehow I experienced a deep felt pride. Jordi, Sonny, Dan, 7, Lillypad and journeygirl are all RV stars this week, in my opinion. Good job mission group.

Thanks Larry

Rev's
